

# MAKE A HERB GARDEN IN A CONTAINER

Did you know that you don't need a large garden to support wildlife?

A small container will be a lot of help too!

You don't even need fancy pot.

Why not try some of these other alternatives?

*Chives in a Cup, Lavender in a Ladel or Hyssop in a Hat...*

## CREATIVE CONTAINERS

Use those old wellies that don't fit any more, or after you have finished a tasty treat why not re-use the container to help wildlife.

## SOME SUGGESTIONS OF WILDLIFE FRIENDLY HERBS

Caraway, Chives, Common Mint, Common Sage, English Lavender, Fennel, Hyssop, Rosemary, Wild Marjoram, Wild Thyme

*"Planting herbs will attract vital pollinators,"*

## SHARE YOUR BRILLIANT IDEAS WITH US

Can you think of your own creative container?  
Why not decorate it too!
